

<b>Name of the Organisation</b>	National Technical University of Ukraine "Kiev Polytechnic Institute"
<b>Organisation Short Name</b>	NTUU "KPI"
<b>Organisation Type</b>	Education
<b>Country</b>	Ukraine
<b>Fields of Activity</b>	The influence of processes on the outer surface of thin metal layers on diffusional phase formation in a volume Thin metal layers, nanostructured, nanophase materials
<b>Skills and Expertise Offered</b>	thin metal layers, nanostructured, nanophase materials
<b>Keywords</b>	thin metal layers, nanostructure, diffusion, surface
<b>Previous FP Projects Participated</b>	No
<b>Topic(s) Interested</b>	NMP.2012.1.4-4 Evaluation of EC communication and dialogue on research and innovation in nanotechnologies and design of future needs for the EU (industry and society)
<b>Contact Person</b>	Svitlana Voloshko
<b>Position in the Organisation</b>	Professor of Metal Physic Department
<b>Tel</b>	+38 044 454 97 70
<b>Email</b>	voloshko@kpm.kpi.ua
